## Methods of Culturing Chapter 3 Microorganisms

The word bacteria is the plural of the New Latin bacterium, which is the latinisation of the Greek βακτηριον (bakterion), the diminutive of βακτηρία (bakteria), meaning "staff, cane", because the first ones to be discovered were rod-shaped.

## Bacteria - Wikipedia

Acetic acid bacteria (AAB) are a group of Gram-negative bacteria which oxidize sugars or ethanol and produce acetic acid during fermentation. The acetic acid bacteria consist of 10 genera in the family Acetobacteraceae. Several species of acetic acid bacteria are used in industry for production of certain foods and chemicals.

## Acetic acid bacteria - Wikipedia

Chapter 921: PESTICIDES. 921.01 Pesticide definitions. As used in this chapter: (A) "Active ingredient" means any ingredient that will prevent, destroy, kill, repel, control, or mitigate any pest, or that will act as a plant regulator, defoliant, or desiccant.

## Chapter 921: PESTICIDES - Ohio Laws and Rules

Women at Argonne, in more powerful roles than ever before, see a bright future for the laboratory,

## chapter 19 bacteria and viruses

themselves and the next generation of women scientists.
