niches that occur as we continue to alter the environment and extend our contact with the microbial world. Most of the microbes that live on or inside humans or exist in the environment do not cause disease in humans (see Box 3-2).

Microbial Threats to Health: Emergence, Detection, and ...

Introduction . Conservation and Public Education . Despite their ecological value, bats are relentlessly and unjustifiably persecuted. Bats are often killed because they live near people who needlessly fear them.

Bats, Chioptera, their biology and their control
