Presentation“abstraction“control (PAC) is a software architectural pattern. It is an interaction-oriented software architecture, and is somewhat similar to model“view“controller (MVC) in that it separates an interactive system into three types of components responsible for specific aspects of the application's functionality.

Presentation“abstraction“control - Wikipedia

1924-26: The Columbia University Statistical Laboratory (location unknown) includes Hollerith tabulating, punching, and sorting machines, Burroughs adding machines, Brunsviga and Millionaire calculators (the latter was the first device to perform direct multiplication), plus reference works such as math and statistical tables.

Computing at Columbia Timeline

Gamification has drawn the attention of academics, practitioners and business professionals in domains as diverse as education, information studies, human“computer interaction, and health.

Gamification in theory and action: A survey - ScienceDirect

Lighting or illumination is the deliberate use of light to achieve a practical or aesthetic effect. Lighting includes the use of both artificial light sources like lamps and light fixtures, as well as natural illumination by capturing daylight.

Lighting - Wikipedia

5 Model Validation and Prediction. 5.1 INTRODUCTION. From a mathematical perspective, validation is the process of assessing whether or not the quantity of interest (QOI) for a physical system is within some tolerance“determined by the intended use of the model“of the model

prediction.
